

Shows a bunch of images with short messages on them, primarily as a kind of advertising stuff!

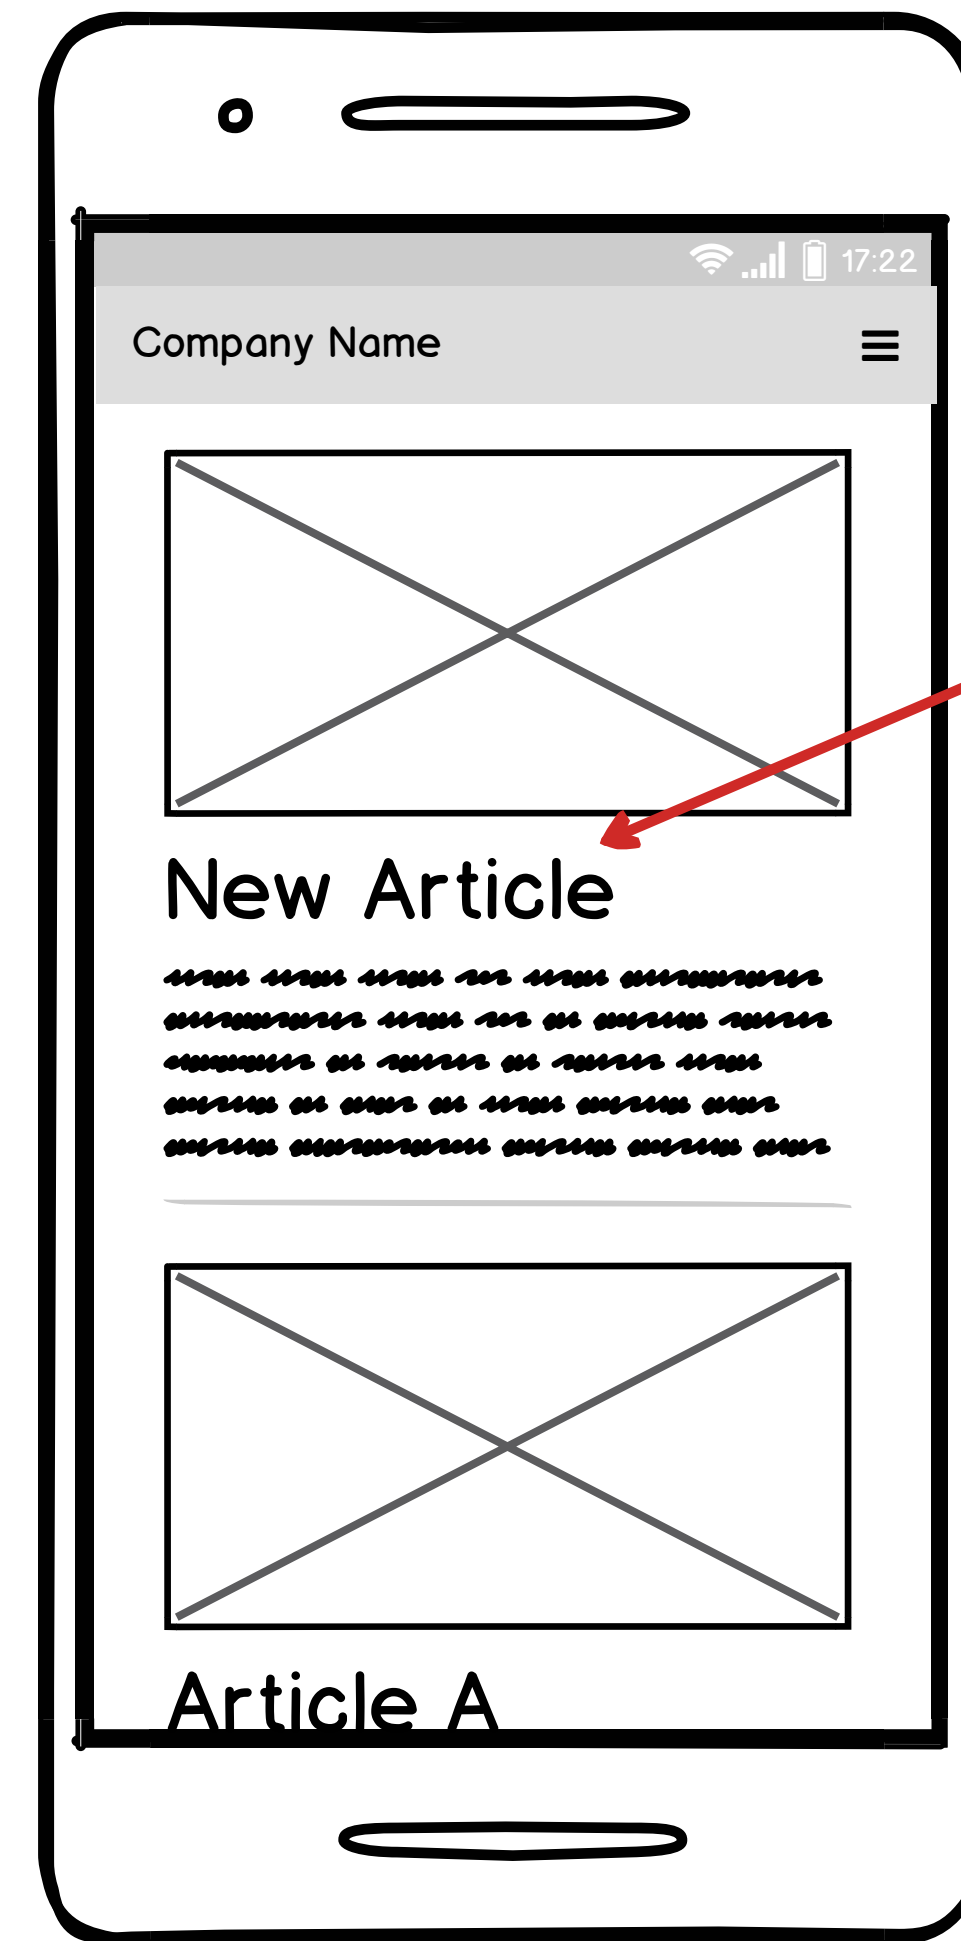

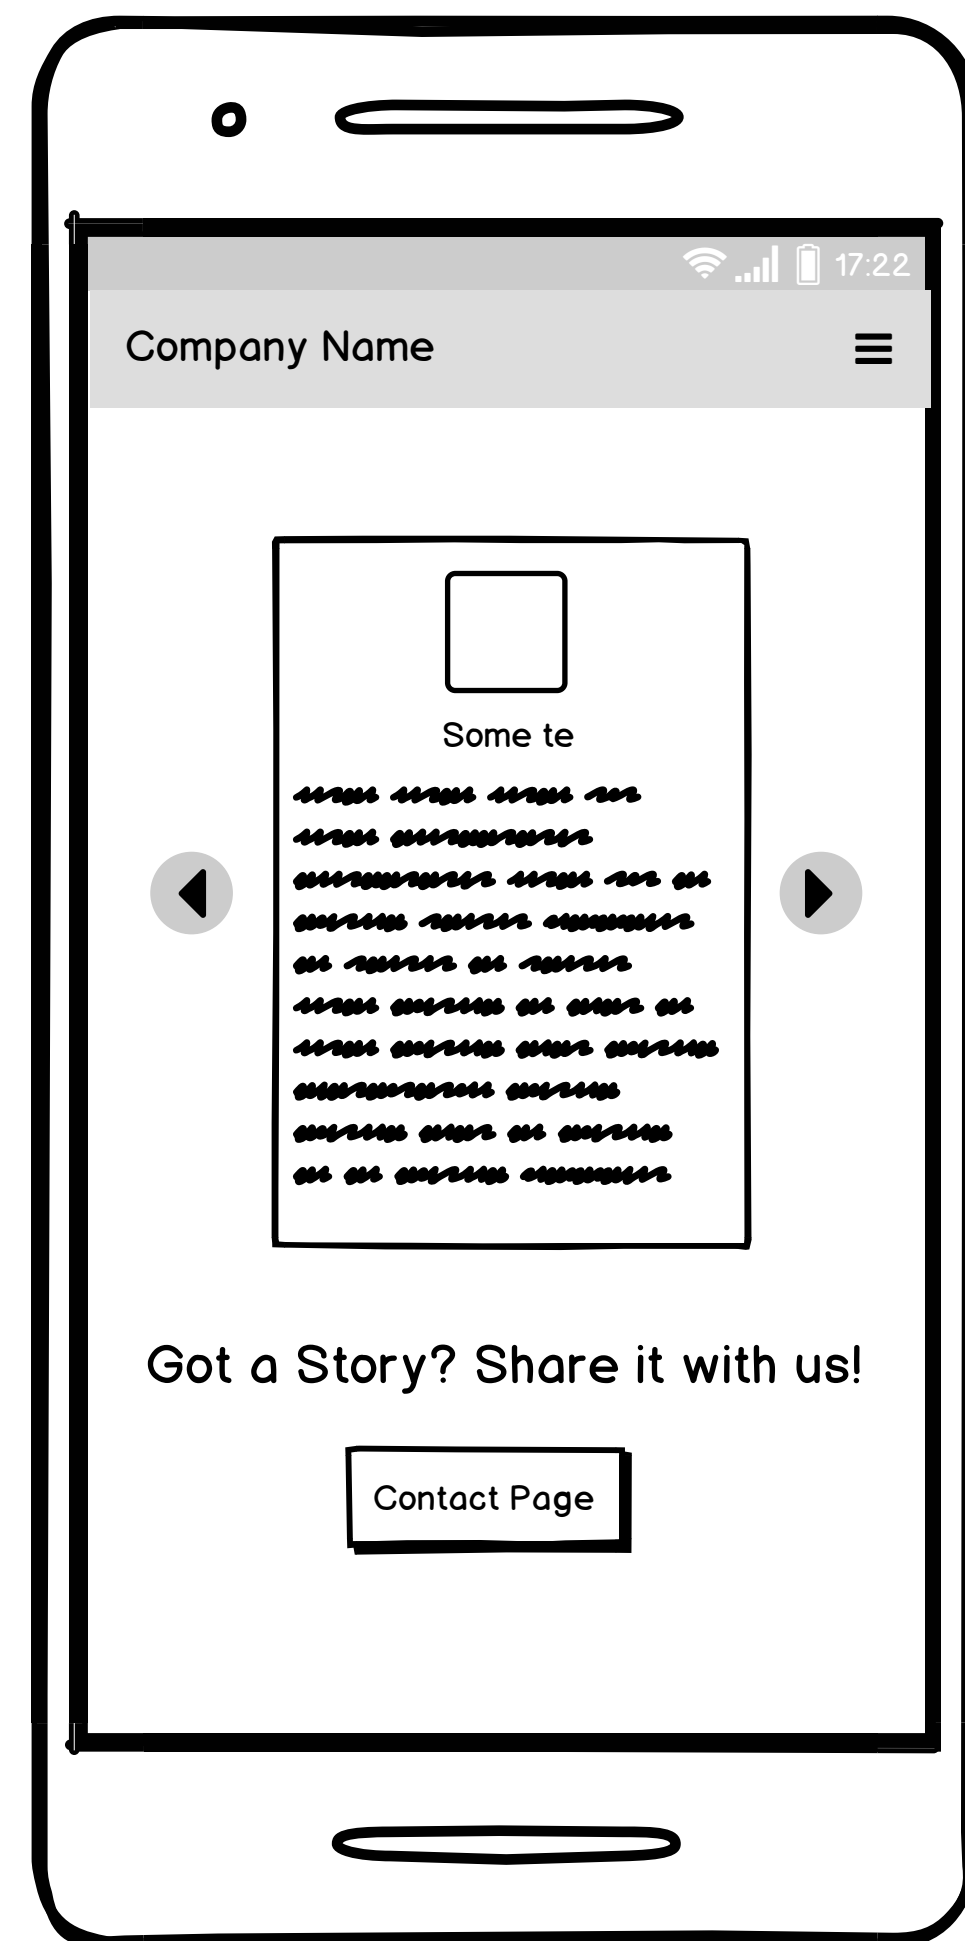

Current image's button is highlighted, others are darkened.

Most recent 4 articles, with newest being the larger panel would need to research how to connect content across pages like this, if at all possible with current skill level.

Selection of testimonials, left and right buttons scroll along them

Burger icon opens nav menu for page jumps
Page is relatively long, so would help with Nav

Both title and image link to full article.
